Layaway scenario

BEFORE ERCX STANDARD

AFTER

ERCX

Alice is looking for a new apartment, but she does not have enough money to buy one. She has also heard of NFT apartments advantages, so she wants one.

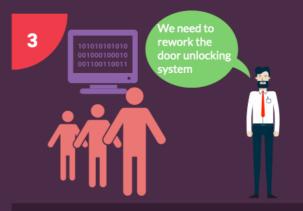

Alice is looking for a new apartment, but she does not have enough money to buy one. She has also heard of NFT apartments advantages, so she wants one.

Alice chooses an apartment available on the existing NFT layaway solutions and buys it from Carl.

Alice chooses an apartment available on a layaway intermediary contract for ERCX tokens and buys it from Carl.

Carl must contact the developers of the apartment's access granting platform in order to grant access to Supermojo's wrapped token owner.

Alice can now access the apartment, as long as she keeps paying the agreed installments.

Alice can now access the apartment, as long as she keeps paying the agreed installments. Carl doesn't have to make further efforts.
